Military training will help—but it takes something besides "setting-up" exercises to make healthy, sturdy men. The body is built out of the food you digest. Shredded Wheat Biscutt contains the vitamines that are necessary to normal nutrition in addition to the tissue-building elements which are absent from many expensive foods. The crisp and tasty doodness of the baked whole wheat is a joy to the palate-most real food for the least money.

GRAY-DORT

EVEN casual observers have com-mented this year on the great in-crease in the number of Gray-Dorts

an increase due solely to the heaping value represented by feature after feature unusual in a light car. The men who have investigated those features are the men who have made Gray Dotts hard to get this year, in spite of doubled production.

A NEW PARTY EMERGES

The political atmosphere long surcharged with disquiet and do has at lasf been clarified. A new party has been formed and a r policy presented. The coalition has ceased to exist in the sense of ex-operation in war effort and armed neutrality in domestic issues, and habeen replaced by a unified party of definite principles and cordial agree een repaced by a unimed party of econine principles and coronal agree-ently. It has been long apparent that this must sooner or later be the ad of a tentative arrangement for a specified purpose which a few nonths ago was accomplished, and it is well for the country that defin-e issues, supported by organized parties, are again before the election

The name by which the consolidated Unionists are to be known ring. It is, perhaps, a little cumbrous, but colloquialism may be expected to soon contract the designation to National Party. A National Party with a National Polary with a National Polary, that its sufficiently comprehensive to en brace all Canadians of Liberal mind and broad views, who believe in our contract of the National Polary with the National Farry with a Nasional Policy, that is sufficiently comprehensive to embrea ell Candinal of Liberal mind and lored views, who believe in tortional control of the Candinal Charty is one upon which all men of molecation can stand. If You Are A Skilled Workman

you will appre-ciate the C.C.M. Bicycle.

Your - trained eye can see the skilled work-manship.

Your trained

ear can tell that the C. C. M. is mechanically perfect; It runs with velvety smoothness. Not a sound of friction.

There is no "give" to the frame when you drive hard — proof positive that the C. C. M. Bicycle has quality, strength, stamina built into every part.

There are 1,761 parts in the C. C. M. Bicycle. Many of them are made to closer limits than the time fuses on shells. With such precision in manufacturing is it any wonder that C. C. M. Bicycles run so easily and quietly?

Every C. C. M. has the long, strong "Fishmouth" reinforcement at the joints. It is brillently enamelled over a coat of anti-rust. The bright parts are nickelled over rust-proof copper. The whole idea in making the C. C. M. is QUALITY first, last and all the time.

Canadian workmen who take pride in and now the value of skilled Canadian workmanship we every reason to purchase C. C. M. Bicycles. Remember the new Hercules Positive Drive Brake—the Coaster Brake without a side arm—is included without extra charge.

More than mere "sweetening" is LANTIC Brown Sugar—it's a luscious flavour! Pure as LANTIC Fine Granulated, this exquisite and health-giving product of the sun-flooded tropics has in each thy particle the rich syrupy "bouquet" of the sugar cane.

And this delicious sugar flavour of the cane gives character and flavour to simple, substantial sweets. Very plain cakes and desserts lack seat and piquancy when made with white sugar. That bit of zest, that dash of piquancy—it comes with LANTIC Brown Sugar.

Brown Broad, Raisin Bread, Exquisite Soft Gingerbread, Spice Cakes and Cookies, Doughnuts, Fruit Cakes, Ginger Snaps and Wafers, Puddings with Old-time Sauces, Pies, Candies, Toffics,— glorify them with LANTIC Brown! Luscious!

LANTIC Brown Sugar should really cost more than white

—if deliciousness is the true test of value—but you get it for
less. Your grocer has luscious LANTIC brown sugar only in

ON the beaches and the lake shore—on the hotel porches and in the ball rooms-wherever well dressed men and women gather-you will see Fleet Foot Shoes.

They are the most popular of aummer styles, just as they are the most attractive in appearance and the most restful

The fact that you can have several pairs of Fleet Foot for the price of one pair of leather shoes is an additional reason for wearing Fleet Foot all summer.

There are styles for business and holiday wear, for ever sport and recreation, for men, women and children.

What Would You Have Said?

STUDY the Gillette Poster on the boards. What do you think of the wording, "A Handle for Every Hand?" Do you think we have taken too much for graated that everybody knows that the Gillette Safety Razor will give a cleaner and more comfortable shave in the least time? That each set at \$5.00 includes 12 double-edged super-keen hindee?

With the space at your disposal on this patter, would you have chosen the message we adopted, or would you have emphasized the NO STROPPING—NO HONING feature, or the fact that there are 20,000,000 Cillette users, or the saving of ten minutes each day by Gilletto owners?

If you do not see the poster itself, you will find a reproduction of it in colours in dealers' windows, together with a display of some of the most popular Gillette sets.

Go' into such a store and you will find Gillette Safety Razors in styles to suit every man who shaves—literally "A Handle for Every Hand"—among them the Gillette exocity suited by your hand! Take it!

Belleville is the natural place for a great ferminal of the National Railway system. The G. T. R. shops and equipment at Belleville are about the largest and most complete of any railway system in Cannala and the large pay-roll contributes ma-terially to the prosperity of this city.

Recent changes in express train schedules has resulted in G. T. R. trains running over the C. N. R. tracks through Belleville and engines, instead of being changed here, go through for Trenton, resulting in Belleville train cross suffering consider-

ount of the added convenience of a dewnstown station the probabilities are that more National passenger will be routed over the C. N. R. tracks, which under p onditions means that Belleville engine crews will run to Tren-on. G. T. R. engines passing over C. N. R. tracks can be ranged at Belleville and Belleville engine crews remain here inthanged at Belleville and or stead of going to Trenton,

the spur line counciling the G. T. R. afd C. N. SCHOOL TEACHER AND THE LOCAL PAPER:

In the University of Wisconsin Press Bulletin appears the

"More power to the real friends of the quantry pressuremy is the time to rully around your home papers and do everything possible to insure their weathering the present situation. The community without necesspore is no place in which to live."

There is a great truth in this counsel. The teacher's word is they linked up with the work of the necesspore; one cannot tall to influence the other. In many cases the teacher takes, a real interest in the leaving the control of the control the other. In many cases, to true greespaper; (me cannot fail to influence to other, in many cases the teacher takes, a real interest in the local paper, and from time to time makes contributions of mass and artisk-and suggestions to the editor. On the disher, the third other hand the excepting gives plenty of space to school news, and globily chronicles anything of interest of the pupils and their lones. Sometimes the trabely according of interest colons attitude to the local paper or the exception of the school paper of the exception of the entire trabellation of the school paper of the exception of the welfare of the home paper, especially at this time when the strangle for existence on account of the scarcity and the pairs of paper is so intense.

If you would catch the full fragrance of LANTIC Brown, use it on bread and butter. If you would get the utmost joy from its use, just watch the children eat it. Truly, in all the King's English, there's only one word for it!

Heaped high with this irrestitled persed, you'll whet an old-time appetite and style relish a tice of brown bread. And the wonder if even the children can possibly enjoy it mer'e than you. Then as you linger long over the subtle zest of it, you'll remomber how good it must be for them, this strength-giving product of the sugar cane.

Because it contains food properties that white sugar has not got, properties that render LANTIC Brown a most valuable article of diet, constituents of the cane juice that help the assimilation of the sugar itself!

So spread it thicher—this Inscious LANTIC Brown—serve it oftener on buttered bread. Fer it is indeed full of energy-fuel for little engines that run oo fast—fuel to go on, fuel to grow on. It gats so easy, and they love it so. Luscious!

SANDY HOOK, July 15.—The Resolute led the Shamrock across starting line today 'n the first American Cup race of 1920.
The Resolute crossed at 12.00.40 and the Shamrock at 12.01.38.
The Shamrock was across the starting line before the starting signal was sounded and under the rules was compelled to return and again cross

the line.

The Resolute took the leading place, with the Shamrock trailing about 200 yards astern.

Yachtsmen said Capt. Burton had made the worst start even seen on a Lipton boat.

RAILWAY OFFICIALS IMPRESSED WITH BELLEVILLE'S POSSIBILITIES

Belleville's shipping facilities by rail and water and the great possibilities of big business being brought to this city through the utilization of the Belleville-Oweng international gatesay, the short and quick route between the United States coal felds and Canada, a toking the congested routes of north-ern New York State and Western Ontorio, is attracting wide-

spread attention.

Mr. W. D. Robb, member of the Board directing the operations of the national railways, paid a visit. Thursday to the Government wharf in company with Supt. McMillan and Capt. W. E. Schuster. A thorough inspection of the wharfage facilities, warehouse, tracks, etc., was made by the railway ficials who appeared to be greatly impressed with the possi-ities of Belleville as an international gateway for commerce tween the two countries.

FAM-LY-ADE As the Days

IN the operation of railways Canadian

The chief Canadian systems are operated wer great stretches of territory presenting

widely different problems. Their traffic obligations fluctuate rapidly

Climatic conditions are sometimes difficult. Unusual foresight, skill and determination

Yet the only unfailing highways for the heavy traffic across the New World from China to France during the war—were Canadian railways.

Canadas alone among the alleft countries had no war-time transportation crisis. When foreign roads tokak-al unker their lood, the relieved them of millions of tons. At a time when ships were the need of the journ on ship loot time in any Canadian port through failure of the railways to deliver cargoes at the docks.

To-day the Canadian producer still commands the fastest, the most dependable and the cheapest railway service in the world.

But the foresight that made this record possible could do nothing without MONTY! The skill that keyt terminals uncongested had to be backed with MONTY! The determination that drove crippled engines sheed in the face of 440-below pales and montains show would in the long run have been useless without MONTY!

Thus to-day the alarming fall in the net revenues of the railways is a menace to railway efficiency. It injures railway credit.
It dissolves the reserves needful to meet the expanding needs of a growing country. It imperils national prosperity.

Increased freight rates are imperative there-fore, not merely on behalf of railways but in the interests of Canada itself!

BEHIND every industry in Canada-

-from the patient truck-gardener howed over his

-to the young manufacturer struggling to prove the worth of Canadian skill and Canadian material in some new enterprise-

-stand the railways-the intelligence, the power and the hopes of the railways of Canada.

Not, like the Exploiter, watching to take harsh advan-tage of hard-times or the follies of a boom—

Not seeking by a moment's shrewdness to "clean up a million and get out!"

Not interested in the price of real estate in just ONE town, or the prosperity of just ONE province—

But, instead, employing their widely-gathered intelligence in the interests of all Canada for all time to come!

For the railways of Canada cannot be lifted up and carried away to serve any other master than Canada

Their services cannot find any buyer but Canada!

They injure themselves if by asking too high returns To-day they damage the prosperity of the citizens of To-morrow.

The request for increased freight rates is made with these facts in view.

Canada will still have the cheapest, the fastest and the most reliable railways in the world!

Do Your Furs Need Fixing?

If your Furs need any repairs, or if you would like them modalled, why wait until you require them? At the present time we are able to give your a better price than later in the season; we can give better attention to the work, and when the cold weather comes you will be in readiness for it.

Do not put off having that work done, but bring it in now save yourself worry and discomfort later. REPAIRING, RELINING and REMODELLING

Where flows the Moirs gracefully
Into the smiling quinte's arms,
I see a stately City, chaske,
An urban dream of rural charms,
Rejecting in its grand estate
Of field and full and spreading bay,
That holds the brarts of happy folk
Who revel in its joys each day.

Fair Bellevillet in rich gown adornes. What Would You Have Said?

TUDY the Gillette Poster on the boards. What do you think of the wording, "A Handle for Every Hand?" Do you think we have taken too much for granted that every body knows that the Gillette Safety Racer will give a cleaner and more combushabave in the least time? That each set at \$5.00 includes 12 double-edged super-keen blades?

With the space at your disposal on this poster, would you have chosen the message we adopted, or would you have emphasized the NO STROPPING—NO HONING feature, or the fact that there are 20,000,000 Gillette users, or the saving of ten minutes each day be cililate, or compared to the compared to the cililate or by Gillette owners?

If you do not see the poster itself, you will find a reproduction of it in colours in dealers' windows, together with a display of some of the most popular Gillette sets.

Go into such a store and you will find Gillette Sofety Razon in styles to suit every mon who shoots—literally "A Handle for Every Hand"—among them the Gillette exocity suited to your hand! Take it!

GOOD-NIGHT, BUT NOT GOOD-BYE.

The celebration of the Centenary of Belleville, coupled with the Reon of Old Boys and Girls is now a matter of history and pleasant n coll-ctions, and any way you wish to look at it, the feativities which be gan last Saturday and ended last night must be regarded as eminently successful. From far and near, from distant China, from California, and om every state in the United States and every province in Canada the how and pirts of by-gone days in Belleville came home to live again for a brief space the happy days of childhood and greet friends of yore hand

to hand and face to face after years of separation The dominant note of the celebration was sociability and the renewal of old friendships treasured for years in pleasant memory. Wisely the committee in charge of arrangements did not attempt any elaborate program of spectacular attractions which might have tended to make the gram of spectacular attractions which might taste track a arranged in a get-together spirit, and the co-operation of all classes of citizens shows have tended to strong in Belleville that if encouraged and the community spirit is so strong in Belleville that if encouraged and the crowded to the community spirit is so strong in Belleville that if encouraged and the crowded to with more dell encouraged and the recorded to with more dell encouraged.

The homecomers were impressed most of all with the warm spirit of hospitality, sociability and friendship manifested on every hand, and those from the United States who had returned with hearts glowing with pride at Canadian achievements in the great war for the freedom of mankind and the preservation of the glorious British Empire, felt more than ever that the glorious heritage of the homeland was indeed something to be everlastingly proud of. Added to this was the knowledge that the bome town had well and worthily kept the faith during the war and had sent sons and daughters across the sea to help in the great st while those at home kept the home fires burning and worked hard early and late to keep production up to a high level and supply needed food, ons of war and comforts for the soldiers in the field as well as su plies for the brave nurses in the hospitals

Next to meeting and g ceting old friends in the pleasure mecomers was the visiting of old familiar scenes—the old school, may hap, or the old swimming hole, or the place where the "gang" maddaily and nightly rendezvous. Memories of the first love and of courting days with the "only girl" were also re-awakened and lived over again in the genial atmosphere of the olden golden days inspired by the presence of so many friends of the long ago

One home-comer from North Bay, Ont., reached Belleville at noon and at six o'clock his arm was limp and his hands almost useless from greeting old friends. At seven o'clock in the evening he was heard to emark, "I never had a better time in my life and would not have missed this for a million dollars." . When last seen the Old Boy from the north

was still going strong and having the time of his life. And so it went all along the line, everybody having a good hime with Friendship king and Sociability enthropad, hedecked with smiles

and radiating happiness and good fellowship. Beautiful Belleville, celebrating its hundred years of pride and progress, greeted the homecomers in gala attire, with streets and stores and residences gaily decorated in the spirit of welcome, and never has th

city looked better. looked better.

To the departing visitors the stay-at-homes bid God-speed, with the wish that happiness and prosperity will ever attend them as will be spared to re-visit the old scenes many times on future happy or

Good-bye, God blass you? and always remember that the latch string is always out for the ho atring is aiways out for the home-comer and a at any time in the Beautiful City-by-thé-Bay.

CHECKING PROFITEERING.

The mesuper ad is one of the principal agencies working against profitering. It is impossible to maintain exorbitant price in, a commanity where the access describe ferry.

In a nonadversion most is relatively easy to put over high prices. Prople get the habit of treating at vertain stores. They key what is handed out to them, at the price about. If they do may be a price the plausible selfer will soon be able to convince them that he is as well as he could.

doing as well as he could.

Any tendercy in that direction is killed by the spirit of publicity,
auggests the Oswego, N.V., Times. If a purchaser is asked a high pric
at one store, he compares it mentally with other store advertising he have
read. He coordudes that he can do better elsewhere, and he resolves to

read. He concludes that he can no better the experience in the newspapers.

Thus advertising sets a certain standard to which even the newspapers advertiser has to conform. One man can not maintain a high price, at a lower figure. Or if he does ask a higher price, he must come ou in the open, and explain in black and white why his goods are enough

rits as the result of his efficiency ble prices is thus held in check, and The tendency to ask unreasonable print not long exist in an advertising town.

CRISP COMMENT

Now that the Old Boyz' Reunion is over, and other attractions an actions, the morning after the night betwee looks just the same as the fore yesterday didn't.

International fixemen gathered at Toronto had quite a few over wha ergyman should sak the blessing. Quite a blaze leaped up, but it was ex-guished without chemicals.

A good feature of the arrangements for the Old Beyz' Reunion was discrimination exercised in favor of residents in the matter of permits bootles. All, Potton, of the Parks Committee, had a resolution enterfol by Clty Conneil that non-residents be charged twint-time delians for a be-purable in softly of the control of the property of the control of the permit in adultion to the require theme too.

Quit your hitchin-even if they do does at the street we can have an anipass-scale service to say part of the root. Get year sings out. The leaker and does the head does the chinney from the 4-xy-kinning the like-tile-slowler the militana can pour the latest flaid down like desimple, while the precent shout the rare in expulse from his tiltin pseudoscif through the 4-yr hight. > The streams of traffic rumbling through this throat are daily growing heavier.

> The local official, anxious to keep up the service in his, district, asks for, say, \$100,000 to blast our additional yard-room and lay new classification tracks.

"Yes," admits the Head Office visitor, "you ought to have that appropriation . . . I'll consider it."

· Back in Head Office he considers five hundred recommended improvements just as necessary as the extension at Blankville. They would cost ten million

The cost of living for railways has overwhelmed their income accounts.

The disappearing margin between total costs and total revenue makes the problem of far-sighted management increasingly difficult and almost impossible of solution.

The fear of choking at throat points is in danger of becoming a real night-mare to officials and a genuine menace to the prosperity of the Dominion.

. This is another reason why increased freight rates are necessary.

CRISP COMMENT

There are one or two streets not closed up byet, and at least one street (bout a pile of paving material; but don't tell anybody, they have probably an overlooked.

That the Conservative Opposition in the Nova Scotia Legislature nearly lost in the shuffle may have been just a case of standing to one to give the Farmer and Labor candidates a try-out.

If the army of impectors for this, that, and the other thing keeps ing business may have to be transacted at night and leave the precise the impectors in the day time—and few impections there be without in them.

One hundred pound rails, heaviest used in Canada, and rock ballast the Grand Junction Railway on Pinnacio street indicates that the railway fields are building for bigger and better business now that the city has kindly relieved them of the major portion of liability for accidents.

YACHT RACES DISAPPOINTING.

The international yacht races for the America's Cup' result, tup defender, the Resolute, winning the majority of the contests pock IV, made a good showing when there was any kind of blowing, but was helpless in the drifting matches.

blowing, but was helpless in the drifting matches. • The race can not be asisfactory an inholdy. The race can not be asisfactory an inholdy. The and yearl spanking hereze favorable to the stout Shannock was do purposenent, and while in my have been necessary, from this distance it made the whole context look like a fare. Then, too, the handriep imposed upon the Shannock was too great to give any hope of success and it holts as if in sportmentile justice the rates could be revited to give the callinger as more civil and.

Under prevent conditions the races for the America's Cup are little better than fareful.

THE AUTUMN OF LIFE.

THE AUTUMN O'LIFE.

Poets have always taken youth for their most joyous songs. To them youth is like the pring—fragrant, intoxicating, beautiful! O'd ape is left for philosophers and scientists to lament or explain. Yet autumn has subthe beauties that yoring knows nothing of, and age larings its own washin of transpolity and understanding.

CRISP COMMENT

Gen. Ludendorff wants the Allies to authorize him to raise a Germ my of one million men to fixht the Bolsheviki. Thanks, we prefer the reiki, they are more clumsy liars.

Forter's Picnic is attracting nation-wide attention because of the fact that Premier Meizhew will make his first and only official philoses in Outstric there his year. The Gobles asys that "wif. Meizhen chooses the old revibes and Tory season as a fitting place from which he begin the apostolate of the reincarnated faith." To be sure!, Why nod!

Addino Many Improvements to Orioinal Value

To-DAY'S Gray Dort is modern, refined, a year ahead of other light cars. From the front axle to the gasoline tank in the rear, our engineers have made changes at every point where change meant improvement.

And from the European-type hood, with its many long, narrow louvres, to the Rayntite top, hand-tailored in our own shop, to-day's Gray-Dort has the simple, dignified elegance, and quality look, that makes every owner speak proudly of "his car."

You must see, drive, ride in, the new Gray-Dort. Our dealers tell us that they are going to be short of cars. Better see your dealer now.

"The Golden Rule"

socver ye would that men should do to you, do ye THE Golden Rule puts you in the other man's place. The Golden Rule

requires every man to act toward his fellow as he would have his fellow act toward him in like circumstances.

The Golden Rule is the ultimate motive of life insurance. It puts you in the place of your wife, your boy, your girl. If you were helpless or dependent you would crave protection; so that by the Golden Rule those who are dependn you demand protection.

In taking life insurance we obey the highest of laws—a statute that has divine anction. To that extent at least we follow the Golden Rule, one of the foundation stones of the better world of the future.

Fortune smiled on the growers But the American buyers added: "Shipments must be made in <u>refrigerator</u> cars to avoid danger from frost!"

Such cars are not common equipment. Hundreds would be needed by the small local railway which in other years had required only but can for the short nan to the nearby occur ports. The domand for refrigerance cars in other parts of Canada was heavy. American lines—to whom the apples were destined—could send more! The success or faulture of the apple growers' whole year's work hung in uncertainty!

Yet the railways of the Dominion, co-operating through the Railway Association of Canada, were able to meet the situation.

Authority was obtained to commandeer any empty foreign refrigerator car found in Canada.

Across three transcontinental lines and in every siding yard or terminal these cars were hunted out.

Every carrier in Canada helped rush them East to a point where they could be fed into the overflowing orchard lands.

Over a million barrels were loaded and moved successfully to market without injury from frost,

This illustrates the spirit behind the railway service of Canada.

Its effectiveness will be broken, however; if railway net revenues continue to fall. Increased freight rates are essential
